

FOR IMMEDIATE RELEASE

The George T. Hall Company Announces its Acceptance into the Parsec Partner Program

This Exclusive Program Ensures Manufacturers Have Access to Experts in the Implementation and Management of Solutions Based on TrakSYS™

Anaheim, California, August 23, 2017 – George T. Hall Company today announced it has been accepted into the Parsec partner program. The Parsec partner program ensures manufacturers worldwide have access to experts in the implementation and management of solutions based on TrakSYS™, its web-based manufacturing operations management software platform.

“Our customers are seeking software solutions to make use of the vast amount of data being collected. TrakSYS integrates with your existing assets and infrastructure including ERP, SCADA, PLC, IOT and presents it in a concise manner that has true impact on the bottom line. Through KPI’s and real time analysis of processes and personnel, TrakSYS gives us the platform upon which to build powerful, flexible, and scalable solutions for virtually any manufacturing data challenge faced by our customers,” said Mike Howard, Vice President of System Integration for George T. Hall Company.

“We are pleased to welcome George T. Hall Company as the newest member of our partner program,” said Michael Stephens, executive vice president of sales and customer support for Parsec. “We think of our partners as an extended part of our team, and the George T. Hall Company helps ensure we can bring the highest level of service and support to our customers worldwide.”

Smarter Software for Smart Manufacturing

The pressure to increase quality and productivity, while reducing costs, has manufacturers seeking a deeper understanding of trends and patterns. TrakSYS aggregates

data from multiple sources to deliver real-time, actionable intelligence for significant quality and productivity improvement – while leveraging existing assets, resources and infrastructure.

ONE PLATFORM. MANY SOLUTIONS.

TrakSYS is a unified manufacturing management software platform, with multiple, fully-integrated features to power specific business solutions.

INVENTORY

- Materials
- Inventory
- Traceability
- Work-in-Process
- ERP Integration

PRODUCTION

- Workflow
- Batch
- Weighing/Dispensing
- OEE
- Historian

QUALITY

- SPC
- Compliance
- E-Records
- Tasks
- Journals

MAINTENANCE

- Scheduling
- Monitoring
- Alerts
- Labor
- Energy

PARSEC

About Parsec

Parsec is the developer of TrakSYS, a leading real-time manufacturing operations management software platform. Manufacturing companies worldwide rely on Parsec for flexible and configurable software to manage and execute manufacturing operations across the value stream more effectively. Without production disruption, TrakSYS helps manufacturers to significantly improve asset utilization and efficiency, increase capacity with no new capital equipment, reduce production costs, decrease lead time, and improve profitability. With measurable ROI, TrakSYS delivers the bottom-line results that manufacturing companies are looking for.
