Process Control

MANUFACTURING

Industrial manufacturers require control systems tailored to their unique processes. GTH delivers design-build automation and control panels, field start-up services, and modern instrumentation and software, providing the data visibility needed to meet compliance requirements and improve manufacturing efficiency.

INDUSTRY 4.0

We offer SCADA and MES solutions that collect and provide highly reliable and redundant real-time and historical data, integrate with cloud-based or onsite systems, and utilized Unified Namespace (UNS) practices to ensure data is valuable for providing in depth insights in performance and workflows

OEE AND KPI DASHBOARDS

For real-time monitoring of efficiency, we offer scalable OEE solutions to look into key efficiency and loss tracking as well as other KPIs such as throughput/first pass yield and cycle time tracking for new or existing manufacturing lines and equipment that can integrate into other BI tools such as ERP systems.

SCADA, HMI, & PLC PROGRAMMING

Whether upgrading existing systems or implementing new solutions, we offer the full stack of line level controls services and use industry best practices for developing, documenting, and maintaining code for our customers.

ON-SITE COMMISSIONING

For service calls and troubleshooting of existing systems, to IO checkout, commissioning, or ongoing technical production support, we offer on-site services where we can bring our multi-industry experience to assist with ensuring new buildouts are successful and existing manufacturing systems run smoothly.

Hear why our clients continue to work with GTH:

"George T. Hall is absolutely one of our best contractors. From proposal to delivery, they're clear, on-schedule, and able to produce a solution for us. With us, they started with control panels, and now perform startup procedures, wire checks, and integrations with other equipment - they're not only delivering products but have a vested interest in ensuring our solution works well for us. Any time I get the GTH team on a project, I know it will be taken care of."

Quality

"Quality is most important to us. If something isn't right, we would rather do it ourselves. GTH holds our standard for quality high, making them easy to trust."

Reliability

"Their commitment to follow through and get things done when they're supposed to is impeccable. They are always on or ahead of schedule."

Expertise

"It's the knowledge they bring as a system integrator about how to program products specifically to our needs in a way that adds value to us."
