

FOR IMMEDIATE RELEASE

**GTH is pleased to announce their recent adoption of Procore's  
cloud based project management software suite**

**Anaheim, California, February 15, 2018** – Their products connect our people with devices, data and documentation elevating visibility across all aspects of our system integration business. Quality, productivity, and change management are just a few of the key elements we're leveraging to provide the best possible product and service to our clients.

As we continue to roll out new features of these cloud-based applications our clients will have the opportunity to see the benefits through improved communication, continuity from project to project and improved quality in documentation and deliverables.
