GTH is now CSIA Certified by Control System Integrators Association

Reno, NV, 11.16.2017 - The George T. Hall Company has earned CSIA Certified status in the Control System Integrators Association (CSIA) "Best Practices and Benchmarks" certification program.

The George T. Hall Company earned the certification following a successful audit – administered by an independent consulting firm – that assessed its performance against client-centric criteria in a wide range of business, project management, and system development areas:

- General Management
- Financial Management
- Project Management
- Supporting Activities
- Service and Support

- Human Resources Management
- Marketing, Business Development, and Sales Management
- System Development Lifecycle
- Quality Assurance Management

"CSIA Certification is the gold-seal mark of a professionally managed control system integration business," says José Rivera, CSIA CEO. "Certification reassures clients that The George T. Hall Company is an established professional services firm that wants to develop a successful, long-term partnership with clients."

Mike Howard, vice president of system integration at The George T. Hall Company adds, "CSIA is the premier benchmarking organization in the control system integration industry. Recognition as CSIA Certified is a testament to our commitment to CSIA's value proposition of ensuring that industries everywhere have access to low-risk, safe and successful applications of automation technology."

About The George T. Hall Company
We're a unique and skilled provider of system integration projects with an expansive knowledge of process controls as they're applied across many market segments. With diversification comes the opportunity for us to support a wide range of clients across the country including water wastewater, combustion controls, mining, manufacturing, power generation, petro-chem and pharma.

About CSIA
The Control System Integrators Association (CSIA) is a global non-profit professional association that seeks to advance the industry of control system integration for the success of members and their clients. For more information, visit www.controlsys.org.
